## Summary

Computer Science graduate with hands-on experience in full-stack development using Python, JavaScript, React.js, Node.js, SQL, MongoDB, and REST APIs. Skilled in responsive web development, API integration, authentication, database management, and AWS cloud services. Strong foundation in DSA, problem-solving, troubleshooting, and reusable code development.

## Education

**Bachelor's Degree - Computer Science and Engineering** 2021/11 – 2025/05  
Annamacharya Institute of Technology & Sciences, Tirupati  
CGPA - 8.12

**Intermediate - MPC (Mathematics, Physics, Chemistry)** 2019/06 – 2021/03  
Sri Chaitanya Junior College  
Per - 66%

**High School** 2009/06 – 2019/04  
Sri Vidhyanikethan E.M High school  
SSC GPA - 8.7

## Skills

- **Programming Languages:** Java | Python | JavaScript
- **Frontend:** HTML | CSS | Bootstrap | React JS | React Router | Responsive Design
- **Backend:** Node.js | Express.js | REST APIs
- **Databases:** MySQL | SQLite3 | MongoDB
- **Core Concepts:** Object-Oriented Programming | Data Structures Algorithms | Problem Solving | API Integration | Database Integration | Debugging
- **Cloud & DevOps:** AWS | EC2 | S3 | IAM | VPC | CloudWatch | Route 53 | EBS
- **Tools & Practices:** Git | GitHub | Reusable Components | Clean Code

## Projects

### Medical Care App

**Technologies used:** React.js, JavaScript, Node.js, Express.js, REST APIs, MongoDB, Mongoose, React Router, HTML5, CSS3

- Developed a responsive full-stack Medical Care App using React.js, Node.js, Express.js, REST APIs, and MongoDB Atlas to help users search for doctors and manage appointments. Built reusable React components, integrated APIs and database operations, implemented routing and authentication, and troubleshoot frontend, backend, and integration issues.

### Nxt Watch – YouTube Clone Web Application

**Technologies used:** React.js, JavaScript, REST APIs, JWT Authentication, React Router, HTML5, CSS3

- Developed a fully responsive video streaming web application similar to YouTube using React.js. Integrated Nxt Watch APIs to fetch and display trending, gaming, and saved videos with search functionality. Implemented user authentication using JWT tokens and route protection for secure access. Built reusable components (Header, Sidebar, VideoCard, Theme Toggle) with theme-switching (Light/Dark mode) support.

## Internship

- Full Stack Java
- Cloud Computing Engineering (AWS)

## Certificates

- MERN Full Stack IRC Certificate (NxtWave) 
- Python Programming Foundations (NxtWave) 
- React JS (NxtWave) 
- Node JS (NxtWave) 
- Introduction to Databases (NxtWave)
